

Mobile Range

Towable Shooting Solution

The Mobile Range is a completely self-contained live-fire training facility, transportable by standard over-the-road methods, without special permitting. Available in several target distances including 7, 10, and a 25 yards/meters. A 'drive-up' solution providing on-site, live-fire training. The Mobile Range can be customized to include monorail targets, shooting booths and/or Laser Shot's Thermal Shot™ live-fire simulator. Other custom options available.

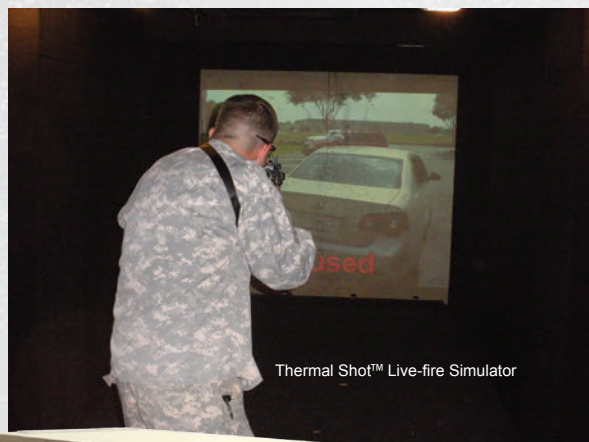

MOBILE RANGE™ SYSTEM
